

## Statement

Ålgård 9.10.2019

27 December 2018\_ Norwegian nutraceutical manufacturer Pharmatech AS achieves Friend of the Sea certification for marine raw materials used in liquid, powder and softgelatin formulations.

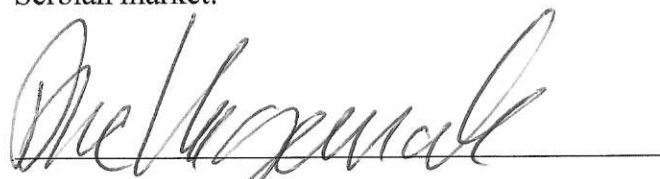

Friend of the Sea standard for sustainable fish feed, fishmeal, fish oil and Omega-3 certifies that the oil originates only from fisheries compliant with Friend of the Sea sustainable fishing requirements and that chain of custody is in place. The audit covered the three processing plants in Fredrikstad, Norway, where the company is located since 1987.

Pharmatech is a major producer of nutraceutical and dietary products in Europe.

“We acknowledge the importance to move our production towards a more environmentally sustainable approach” affirms Markus Lund, Business Director at Pharmatech AS. “Friend of the Sea is the international sustainability label of reference for omega 3 products.”

“Pharmatech products certification consolidates Friend of the Sea’s presence in Norway and Scandinavia. International customers will be able to express their engagement to preserving the marine habitat by choosing Pharmatech products” concludes Paolo Bray.

Norwegian Pharma are the exclusive distributor of Pharmatech AS and with a long term cooperation with Norway House d.o.o and Managing Director Bojan Radomirovic for the Serbian market.
